#### **Section I – Introduction**

The project SecWeb (MARE2020-08) was setup with the aim of developing mechanisms to support the planning and execution of administrative tasks and the branding and online visibility of the Regional Coordination Groups (RCGs), with the aim to establish a long-term supportive structure, the RCGs' Secretariat. The need for a coordination and administrative supporting structure for RCGs had already been identified by all RCGs in several previous projects, such as FishPi² and STREAM.

One of the expected outcomes of the project is to ensure future operation and funding scenarios learning from the pilot implementation experience and developing suitable business models for the long-term run of the Secretariat.

To avoid any disruption of the services, ideally the funding mechanism should be in place once the project ends, 28th February 2023. However, finding a viable approach for the long term stabilisation of the service will still need some further discussions and decisions in the context of the RCGs. This report is aimed to deliver, in an organised manner, all the relevant information gathered in SecWeb which can feed into these discussions and facilitate the decision-making process.

#### Section II - Business models to present to the RCGs, the NCs and COM

#### Section II.I- List of scenarios presented in previous studies and reports with the services linked

#### Section II.I.I - FishPi2 (2017-2019)

The need for a secretariat was investigated and discussed during the work in the fishPi2 WPI. The role for the secretariat was defined as being administrative, at least for the short and medium-term. A secretariat could provide support to one or several RCGs.

The general tasks for the secretariat were mentioned as:

Support the chairs to set up and run the RCG meeting(s);

Support the chairs to report from RCG meeting(s);

Support the chairs to organize and monitor intersessional subgroup work;

Maintain the website for the RCGs.

Fishpi2 discussed the staff level required to fulfil the desired tasks and elaborated on the total costs for the service carried out by the secretariat.

#### **Costs for the Secretariat**

FishPi2 discussed the staff level required to fulfil the desired tasks and elaborated on the total costs for the service carried out by the Secretariat. The detailed estimated costings are based on the provision of Secretariat Services to two RCGs (Baltic and NSEA+NA) each holding a five-day meeting and a two-day meeting. In the example 2 levels of staff have been included and identified their skills and experiences.

RCG Co-ordinator - An individual with experience in the provision of Secretariat support for international organisations.

RCG Administrator - Familiar with and capable of efficient delivery of administrative services.

The detailed costs (time and euro) is outlined in table 1. It should be noted that this was an example as a basis for future discussion. An estimated budget of approximately €100 000- 120 000 could be sufficient to cover the needs for two RCGs (Baltic and NSEA+NA) including support for subgroup work. Several models for how the costs should be split could be considered. These include flat rates across MS or rates based on shares in the fisheries.

<sup>9</sup>b83208c-5dab-45b1-b70d-3aa3d99e8db0 (europa.eu)

# FishPi2 stressed already the need to examine if the Commission could contribute partly (or in full) to the costs<sup>2</sup>

#### Section II.I.II - RCG NA NS&EA & RCG Baltic

#### 2019

During the 2019 meetings, RCG NA NS&EA & RCG Baltic concluded that the RCGs have complex and extensive tasks but are presently not supported by central resources. The RCGs are expected to interact with a wide group of end-users. This is difficult since the work of RCGs is largely invisible resulting in end-users being either unaware of RCGs or having unrealistic expectations.

After discussion on the fishPi2 project, which identified the need for robust funding of central resources for RCG work to be effective and consistent, the RCG identified central resources needed are:

Secretariat for the RCG:

Website for the RCGs.

Also was concluded that the estimated total cost for a secretariat and to establish a webpage would be 130 000 € the first year and 100 000 € the following.

#### Models to finance

It was suggested that the MS share the costs of the central resources. This has advantages as RCGs and MS keep independence and control over how central resources are developed and utilized.

If MS agrees to finance the central resources this can be done in different ways e.g. as a flat rate across MS, dependent on MS share in EMFF, or as combinations between the two. Below are tables (year I and year 2-5) showing examples of different MS contributions assuming different models. The example is including the I5 MS participating in RCG NA, NS&EA, and Baltic.

Table 2. Possible options for distribution of the costs between MS to fund central resources necessary for effective RCG work.

#### 2020

In the 2020 RCG NANSEA and RCG Baltic meetings it was mentioned that the shared funding for data collection in the EMFF is based on national envelopes (per MS) and does not foresee EU-wide or regional funding mechanisms. MSs have so far not made funds available to support the administrative needs of (pan)regional coordination structures.

In principle, the MS was agreed upon, but the NCs requested more time to take this into account and to allocate national resources for the funding. Due to an incompatibility of timing as the financial planning for 2019 could not be changed anymore the task to establish the fundament for long-term funding and establishing supporting tools for RCG became one of the main aims for WP3.

#### Section II.II- Listing the scenarios developed during the project SECWEB

To establish a long-term scenario for the implementation of the RCGs Secretariat, the calculations are done on a yearly basis and taking into account, the experience gained during the previous projects and the actions during the implementation of SECWEB. Running the pilot case of the RCG NANSEA and RCG Baltic, through the whole RCGs cycle has resulted in a full detailed description of the services and estimation of resources. The scenario considers 150 thousand euro as the preliminary annual budget. These estimations are valid until 2025. A revision of the costs is expected every three years to account for possible change of conditions, inflation rate, etc. Total amount per MS are total net amounts, VAT has not been considered in the calculations.

In total, seven scenarios were developed, with all scenarios presented taking into account providing support to the six RCGs, namely: RCG North Atlantic, North Sea & Eastern Arctic; RCG Baltic; RCG Long Distance Fisheries; RCG Large Pelagics; RCG Economics Issues and RCG Mediterranean & Black Sea.

The seven scenarios studied are:

- Scenario I Flat rate scenario
- Scenario 2 Flat rate scenario with lower annual contribution by the LLC
- Scenario 3 Based on annual contribution by MS according to the total EMFAF budget for the period 2021-2027
- Scenario 4 according to the number of RCGs in which each MS is participating
- Scenario 5 3-component scenario: EC contribution, % of EMFAF, MS participation in RCGs
- Scenario 6 2-component scenario: this scenario was not presented to the NC and was calculated because the EC participation in scenario 5 is not confirmed.
- Scenario 7 Ensuring the finance of the RCG secretariat by EC contribution only

#### Scenario I - Flat rate scenario

The first scenario created was the most simple and transparent one, according to the annual budget which is needed for the operation of the Secretariat divided equally between all MS. Each MS should pay annually a flat rate of 5769 €.

It was calculated what is the % of flat rate from the average annual distribution of the Global resources from the EMFAF per Member State for the period from I January 2021 to 31 December 2027 from ANNEX V of Regulation (EU) 2021/I139 of the European Parliament and of the Council of 7 July 2021 establishing the European Maritime, Fisheries and Aquaculture Fund and amending Regulation (EU) 2017/1004.

#### Scenario 2 - Flat rate scenario with lower annual contribution by the LLC

In the second scenario, two different flat rates were taken into account.

As land locked countries (LLC) are significantly less involved in the respective RCGs, this was taken into account in this business scenario. The land locked countries were allocated a lower contribution, being 3125€ and a twice higher amount for the other MS, each of them accounting for 6250€.

# Scenario 3 - according to the annual contribution by MS according to the total EMFAF budget for the period 2021-2027

The third scenario is based on the % of EMFAF budget that each country will receive in the period 2021-2027. If this scenario is in place, each MS will have to pay 0.01977% of their EMFAF budget for the Secretariat. This scenario results in an annual budget ranging from 190€ up to 31.655€ by MS, depending on the combination of the respective % EMFAF budget. However, this scenario does not take into account the involvement in the respective RCGs.

#### Scenario 4 - according to the number of RCGs in which each MS is participating

The estimations in the fourth scenario are based on the number of RCGs in which each MS is participating in combination with the % of EMFAF budget that each country will receive in the period 2021-2027. The participation in the respective RCGs is as follows: 8 MS are part of RCG Baltic; 13 MS in RCG NANSEA; 10 MS in RCG Med&BS; 9 MS are participating in RCG LDF; 9 MS are members of RCG LP and all (26) MS are participating in RCG ECON. The sum of all MS participating in total to all RCGs, is 75. This number is used in the calculation for the 'weight' of a MS participating in a respective RCG.

For the calculations of the exact contributions by MS the total amount of 150 000 € was divided by 75 (the sum of the number of MS in each RCG) and multiplied by the number of RCG in which each MS is participating. On 4th January 2022 these four scenarios were communicated with the NC together with the first questionnaire, of which the results are presented together with a detailed information from the answers in point Section IV.II – Long-term strategy.

After numerous meetings and discussions, the SECWEB team decided to propose to the NCs the 2nd scenario: the flat rate scenario seemed to be the most likely scenario to keep long-term funding simple and transparent. The reasoning behind it is that it is the only approach for a common responsibility about data collection. Keeping it simple is important, at the end it is for the overarching goal of the DCF.

The scenario is based on the very preliminary estimated annual budget/cost of 150 000 € for the RCGs Secretariat & Tools and EMFAF annual budgets of the MS. Since land-locked countries are presented in one RCG only and their EMFAF budgets are much lower than budgets of the other countries the proposed annual contribution for them is half of the contribution of other MS.

From the consultation process with all MS, it became clear that several MS would have difficulties with the administrative/legal implications of this cost-sharing. Therefore, it became clear that a further discussion was needed. A next consultation with all MS was organized to inventories per MS what system would work in order to have an administrative implementation acceptable per individual MS. From the feedback on this questionnaire, it became clear that some member states were in favor to the proposed flat rate scenario, while others were against the flat rate approaches. As a result, a fifth scenario was developed, which took into account the three different components presented in the previous scenarios.

\* This scenario was revised due to the changes in some RCGs, but the differences with the initial version are negligible for the MS for which there were not changes in their participation.

# Scenario 5 – Three component scenario, which was presented to the NC and was commented during the NC meeting in September 2022

In the fifth proposed scenario for ensuring the finance of the RCG secretariat, the assumption was made for a hypothetical EC contribution, a MS contribution, according to the EMFAF and MS contribution, according to the number of RCGs. All the amounts are purely for the drafting of the financial estimation, and they could be easily adjusted if one of the three parts changes.

Initial assumption proposed: 45 000 € for EC contribution, 52 500 € contribution to be split by all MS based on EMFAF %, and 52 500 € contribution, according to the number of RCGs in which each country is participating.

- I. The first component of the budget (EC contribution) is indicated only as a theoretical example and better visualization of the scenario and IT IS NOT proposed or confirmed by the Commission.
- 2. The second component is based on the distribution of the GLOBAL RESOURCES FROM THE EMFAF PER MEMBER STATE FOR THE PERIOD FROM I JANUARY 2021 TO 31 DECEMBER 2027 from ANNEX V of Regulation (EU) 2021/1139 of the European Parliament and of the Council of 7 July 2021 establishing the European Maritime, Fisheries and Aquaculture Fund and amending Regulation (EU) 2017/1004. The amount of €5,311,000,000 should be provided through national programmes co-financed by the EU budget and the EU Member States the percentages of each MS are given in table 2, annex I.

The proposed amount of 52 500 euro is distributed according to the % of the EMFAF budget of each MS.

3. The third (and most complex component) is related to the complexity of the administrative support of each regional working group and the participation of each country in different RCGs.

The complexity of the support was proposed by the pilot Secretariat based on their experience gained in the project, and agreed by the project team. The weight of each RCG was estimated as: 30% for the RCG MED&BS, 20% for RCG ECON, 20% for RCG NANSEA, 10% for RCG LP, 10% for RCG LDF and 10% for RCG BALTIC. In the table XX in annex YY the participation of each MS in each RCG is summarized. All 4 landlocked countries (Austria, Czech Republic, Hungary and Slovakia) are members of only one RCG, being the RCG ECON. The number for participating MS in the RCG varied between 8 MS in RCG Baltic and 26 MS in RCG ECON. The total parts (75) consist of 8 MS participating in RCG Baltic, 10 MS in RCG Med&BS, 13 MS in RCG NANSEA, 9 MS in RCG LDF, 9 MS in RCG LP and 26 in RCG ECON.

For the calculation of the costs per Member state per RCG the amount of 52 500 euro was multiplied by the proposed weight for the exact RCG and by the number I, which is indicating the participation in the RCG and divided by the total number of MS participating in the exact RCG.

#### For example,

Belgium is participating in RCG NANSEA and RCG ECON, so the amount that is estimated for each participation is:

For RCG NANSEA = total amount for this third part (52 500  $\in$ ) \* the weight for RCG NANSEA (20% or 0.2 for the calculations) \*I (indicating the participation in the RCG)/ to the number of all MS participating in RCG NANSEA (13) => 52 500\*0.2\*1/13= 807.69 euro

For RCG ECON = total amount for this third part (52 500  $\odot$ )\*the weight for RCG ECON (20% or 0.2 for the calculations)\*I (indicating the participation in the RCG)/ to the number of all MS participating in RCG ECON (26) => 52500\*0.2\*I/26=403.85 euro

Each MS will have to cover financially points 2 and 3 from the current scenario, which means that in total Belgium should contribute by 1610 euro, from which 398 euro are calculated according to point 2 (Total

EMFAF budget (5 311 000 000) divided by the Belgian budget (40 266 171) multiplied by 52500 euro) and 1212 euro according to point 3.

Scenario 6 – 2-component scenario: this scenario was not presented to the NC and was calculated because the EC participation in scenario 5 is hypothetical and not confirmed.

This scenario is following the same principles as points 2 and 3 the previous scenario. The main difference is that the hypothetical EC contribution is excluded from the calculations.

The budget of 150 000 euro was divided in 2 parts - 75 000 euro for contribution, according to the EMFAF and 75 000 EURO contribution, according to the number of RCGs in which each country is participating.

# Scenario 7 – Ensuring the finance of the RCG secretariat by EC contribution only (hypothetical scenario)

The possibility of financing the RCGs Secretariat activities fully by the COM has been discussed in the implementation of the SECWEB project. By the end of the project, it was not clear yet if this was a realistic and achievable scenario. The current legislation and internal rules are rather complex and there was not enough time to investigate this scenario, and to look if this option is achievable or realistic.

However, if the mechanism of providing the finance needed by the EC for the RCG secretariat could be covered in full, this would simplify the different administrative approaches for the different MS and this would be more than welcomed by the MS.

# Section III - Clear description of the level of service related to the costs ('return on investment')

| Acti                   | vity description   | RCG NANSEA | RCG Baltic | RCG LP   | RCG LDF  | RCG ECON | RCG Med&BS     |

Starting from 2023, the Secretariat should cover the following service lines. Further specifications on them will be elaborated and described within the annual work-plan of the Secretariat.

- 1. Daily regular operations and processes:
  - 1.1. Manage daily communication and correspondence with the RCGs stakeholders.
  - 1.2. Maintain and manage interaction/requests records.
  - 1.3. Draft official letters, reports, etc.
  - 1.4. Manage the secretariat's legal, finances and staff obligations according to the annual plan and guarantee due diligence and accountability of the service.
  - 1.5 Maintain working tools and repositories such as:
    - 1.5.1. Stakeholders' database
    - 1.5.2. Maintenance of virtual repositories and working areas.
    - 1.5.3. Other databases, logbooks or records agreed in the annual workplan for the Secretariat.
  - 1.6. Maintain basic protocols and organisational procedures updated and accessible for the interested parties:
    - 1.6.1. Participants' itinerary (chair and co-chair mandate and remits)
    - 1.6.2. Rules of procedure
    - 1.6.3. Terms of reference
  - 1.7. Communication and dissemination activities:
    - 1.7.1. Web, e-newsletter & Social network maintenance and promotion
    - 1.7.2. Corporative image and branding strategy maintenance
    - 1.7.3. Become the Stakeholders' focal point and helpdesk for the RCGs network
    - 1.7.4. Manage consultation processes (questionnaires and surveys)
  - 1.8. Elaborate (in consultation with the RCG and ISSG chairs) a year-around action plan, with KPIs and targets for implementation and monitoring, and subject it to approval during the RCGs annual meeting cycle.
- 2. Support to meetings and meetings' reporting:
  - 2.1. Support the RCG chairs to prepare, set up, announce and manage the RCG Technical Meetings and the Liaison Meeting.
  - 2.2. Support the RCG chairs across the reporting process from RCG meetings (from the compilation of inputs to the final edition and dissemination).
    Support intersessional activity
  - 2.3. Support the RCG chairs to organise and monitor the intersessional work and achievements.
  - 2.4. Provide administrative support for the design and launch of new initiatives by the RCG network.

#### **OVERALL EXPECTED OUTCOMES**

- ✓ A full-time dedicated Secretariat support service for the RCGs enables a consistent approach to
  administering RCG activities, facilitates communication, and enhances the intersessional work,
  supporting also the work of sub-groups.
- ✓ A dynamic and permanently updated website will be kept available including as features:
  - o Integration allowing seamless synchronization with third-party information needs and requests.
  - Responsive display to serve content across multiple devices, screens, and browsers.

- o User experience- maintaining a satisfactory user experience throughout the website sections.
- Accessibility To any interested visitor in a user-friendly way across the website sections.
- o Retention- keeping visitors coming back to the website.
- Links to relevant restricted access sites/virtual environments.
- ✓ The Visual identity for the RCGs is increasingly consolidated and visibility and understanding of the work by the RCGs is enhanced for the relevant stakeholder groups.
- ✓ A regularly updated Stakeholders' database helps the communication function among the RCGs' experts and the stakeholders' community.
- ✓ Internal communication protocols and help-desk in place makes it easier for any newcomer to efficiently join, adopt responsibilities, and contribute to the RCGs objectives and work commitments.
- ✓ The public description of the secretariat functions, operational working protocols and commitments will build trust and enhance the whole network transparency and accountability.

Preliminary disaggregation of the budget is presented in the table below. It needs to be noticed that these estimates are based on the experience gained upon the pilot period during SecWeb, and considering the continuity of the service without significant disruptions. Disruptions would likely have an extra cost for the network related to the learning curve of the staff operating the service and the update of the communication tools developed by the project (.e. the website, repositories and other operational tools such as the stakeholder's database, etc.).

| Secretariat (breakdown of budget needs)   |               |
|---|---------------|
| I full year service   | BUDGET (in €) |
| I full time eq. technical manager   | 40,000.00     |
| I full time eq. assistant (Admin and communication)   | 29,000.00     |
| I part-time supervisor (10% dedication)   | 7,200.00      |
| I part-time back-up support, for holidays or any other extraordinary service needs (10% dedication)                       | 6,200.00      |
| ICT support services  | 12,000.00     |
| Travels and subsistance costs (I full week for I person x 8 trips a year)   | 13,600.00     |
| Logistics for meetings (coffebreaks, venue, audiovisuals)   | 20,000.00     |
| Other minor costs (software licenses, computing and periferials, printings and other consumables and small services, etc) | 6,000.00      |
| Indirect costs  | 16,080.00     |
| TOTAL   | 150,080.00    |

# Section IV - The development of long-term strategy and a short-term operational plan for the RCG's support structure (for 3 years beyond the SECWEB).

#### Section IV.I - Short-term operational plan

The diversity and complexity of the information gathered made it necessary for the SecWeb to consider options to buy some time for further analysis without disrupting the progress achieved so far. The small amounts in the distributed scenario allocated to most of the countries would make it feasible to keep the service with a direct contract on a country-by-country basis for year 2023. This led to an analysis of options for a short-term solution to be adopted right beyond SecWeb implementation period, while MSs and the EC could further explore the feasibility of options for the long-term stability of the service.

Taking into account the replies to the questionnaire asking Member States about public procurement regulation in each country (Annex II), the following documents were sent to the MS for ensuring the short-term operation of the Secretariat. The following tables synthesise the outcomes of the consultation process and classifies the countries according to three main situations:

- Group I are the countries for which the amount for payment assigned by the latest scenario is below
  the threshold amount established for a procurement process, and thus could commit contractually to
  the Secretariat Service provider before the end of 2022; or before the end of February 2023 at the
  latest;
- Group II is made by the countries with allocated fees below the public procurement thresholds but should add three offers to commit to a provider and assign the contract to the provider at the lowest price;
- Group III is made by the countries to which the amounts assigned are above the market price for a
  public procurement process.

Finally, a few countries are out of these three groups despite the small amounts assigned to them by the funding scenario. These land-locked countries find that the contractual procedures would take too much administrative burden that would cost more than the assigned fee itself.

TIMELINE FOR CONTRACTUALISATION OF THE RCG's Secretariat Service in 2023

#### **LEGAL POSSIBILITIES vs FUNDING SCENARIOS and TIMELINE**

#### SERVICE OFFER FORMAL LETTER

From: Centro Tecnológico del Mar, Fundación CETMAR. Eduardo Cabello s/n Vigo, Spain

XXth November 2022

Sub: Regarding service offer approval for RCG's Secretariat services

Dear Mr. XXXX,

This letter is to formally submit CETMAR's offer for the provision of the "RCGs' Secretariat services" for their assessment and eventual approval by the XXXX. The quotation includes XXXX 's proportional share of the RCG's Secretariat services from January to December 2023 according to the scenario presented at 2022 RCG Decision Meeting by the SecWeb Coordination.

Attached with this letter you can find the financial offer as well as the technical offer, with a detailed technical description of the services, included. Additional information about timeline for contractualisation of the RCG's Secretariat Service in 2023 is also enclosed.

At your earliest convenience, we would appreciate that you review this information and please share your feedback especially if there are any changes or any additional requirements needed to initiate the contractual procedure.

If no changes or additional information is needed, then please send us back your approval of the offer no later than  $7^{th}$  December 2022.

Thank you for your prompt action regarding this matter. Sincerely,

Ms. Paloma Rueda Crespo

Managing director and legal representative Centro Tecnológico del Mar, Fundación CETMAR

| VAT   | N/A   |
| TOTAL FUR   | YYYY  |

(\*) Should there be any circumstances that shorten the period to cover for the provision of services, the invoiced amount will be adjusted proportionally.

INVOICING INSTRUCTIONS: will be provided by the CONTRACTOR with the submission of this OFFER ACCEPTANCE.

Approved by:

Management unit

Date

#### Section IV.II - Long-term strategy

A long-term plan to maintain the Secretariat as a permanent support structure to the RCGs is essential to guarantee funding efficiency, to reinforce experts' engagement and for strengthening the regional cooperation in the context of the DCF.

Implementation of the activity should be granted from 2023 onwards, until 2027 and beyond.

The activities will be carried out consistently with the business models and funding scenarios found most suitable and acceptable by the Member States (MS) and the European Commission (EC), as developed under SecWeb WP3. The work of the RCGs' Secretariat beyond SecWeb implementation period must be built upon the project's outcomes and the services should reach all the RCGs. Given the different background and context of the RCGs, the working methodology for the Secretariat should enable some flexibility to adapt to the specificities of each RCG, however, the overall service lines and protocols will be shared and defined in common. The outcomes and workplan from and for the subsequent intersessional periods will be presented and discussed for approval during the RCGs annual meetings.

The MS and the EC will contribute jointly, with financial support to the service contractualisation on the basis of the funding scenarios presented as annex to this document. The service provider will invoice ach party according to the share of the service that corresponds, according to the amounts set in the long-term financial plan and to the legal/administrative basis enabling the contractual procedure in each country. Each country will send a formal acceptance letter to the service provider before the start of the implementation period, specifying the amount, the invoicing period, the legal entity details, etc.

The first questionnaire was distributed among the MS at 4th of January 2022, together with the 4 scenarios:

- I. Flat rate annual contribution by MS;
- 2. Flat rates annual contribution by MS with lower amount for the land-locked countries;
- 3. Annual contribution by MS according to the total EMFAF budget for the period 2021-2027;
- 4. Annual contribution by MS according number of RCGs in which each MS is participating.

The questions from the survey, together with a summary of the answers are presented below.

### MS feedback on

## Secretariat's long-term funding

#### **Questions overview**

Despite the efforts to find a common administrative procedure for all MS for the long-term funding of the Secretariat some questions still remain. In order to proceed gather MS's feedback on the following:

- 1. Is it acceptable for your MS to apply the proposed flat rate scenario?
  - I. If NO please provide your concerns.
  - 2. What scenario is acceptable for your MS and why? Please describe
- 2. Is it possible for you to allocate the proposed amount from your national EMFAF Operational programme?
  - I. If NO please mark one or more from the options bellow and provide explanation on the obstacles.
- 3. Is it possible for your MS to include this activity in your WP and allocate the amount for cost on yearly basis starting from 2023?
  - I. If NO please provide your concerns
- 4. Is it acceptable for your MS and your EMFAF managing authority to have an invoice from an external (outside of your MS) body?
  - I. If NO please provide your concerns
- 5. Please provide acceptable procedure for the election of responsible organisation. More information on the procedures is accessible on the following web link <a href="https://ec.europa.eu/regional\_policy/sources/docgener/informat/2014/guidance\_public\_proc\_en.pdf">https://ec.europa.eu/regional\_policy/sources/docgener/informat/2014/guidance\_public\_proc\_en.pdf</a>.
- 6. Do you think that it is needed to have a common (multilateral) agreement between all MS for the funding of the RCG Secretariat?
  - I. Please provide your comments
- 7. Any other comments or suggestions?

#### MS's feedback question by question

#### Question 1: Is it acceptable for your MS to apply the proposed flat rate scenario?

- I. If NO please provide your concerns
- 2. What scenario is acceptable for your MS and why? Please describe

|     | QΙ  | Q 1.1  | Q 1.2.   |
|-----|-----|--|--|
| AUT | No  | As a land-locked country Austria is only involved in one of the six RCGs. A flat rate leads to an over-proportionate contribution from land-locked countries. It is unacceptable that Austria with a share of 0,12% (!!!) of the EMFAF-budget should have the highest relative contribution to this project. | According to the Commission's implementing decision (EU) 2021/1168, Austria is not required to provide socio-economic data on aquaculture. Therefore, we always considered our data collection activities in this area as voluntary and this included participation in RCGs. At the utmost, we could consider a calculation method that takes into account the number of RCGs MS participate in – in addition to the available funds and the requirement to undertake data collection on an obligatory/voluntary basis (see above) |
| BGR | Yes |  |  |
| HRV | Yes |  |  |
| СҮР | No  | It is not much fair for small countries.   | We consider a fairer allocation of the amount would be to assign a certain percentage to data collection budget of each MS.  |
| CZE | Yes |  | Invoice issued to the National Correspondent for participation in RCG ECON (see questions 6.1 and 7).  |
| DNK | Yes |  |  |
| EST | Yes |  |  |
| FIN | Yes | -  | -  |
| FRA | Yes |  |  |
| DEU | Yes |  |  |
| GRC | Yes |  | We believe that the flat scenario is acceptable, as the RCG Secretariat aims is to support the RCGs, so all MS should have an equal share on the funding.  |
| HUN | Yes |  | Invoice issued for particitation in RCG ECON   |
| IRL | Yes |  |  |
| ITA | Yes |  |  |
| LVA | Yes |  |  |
| LTU | Yes |  | Flat rate scenario is ok   |
| MLT | Yes | NA   | NA   |
| POL | Yes |  |  |

| PRT | No  | A flat rate must be applied over the amount of DCF and not over the budget/cost for the RCGs Secretariat. | The flat rate only can be applied over the amount of DCF of each MS. Additionally Commission must do a legal act.  |
|-----|-----|---|--|
| ROU | Yes |   |  |
| SVK | No  | Rate for Slovakia is still under consultation process with our budget department.                         | in consultation process  |
| ESP | No  | See comments under 7. below.  | Being this a periodical rather than an occasional payment we believe, as we have stated in previous occasions, the Commission itself facing this expenditure could be a better solution. |
| SWE | Yes |   |  |
| NLD | Yes |   |  |

# Question 2: Is it possible for you to allocate the proposed amount from your national EMFAF Operational programme?

2.1 If NO, please mark one or more from the options bellow and provide explanation on the obstacles.

|     | Q 2 | Q 2.1.  |
|-----|-----|---|
| AUT | No  | Insufficient budget   |
| BGR | Yes |   |
| HRV | Yes |   |
| СҮР | Yes |   |
| CZE | Yes |   |
| DNK | Yes |   |
| EST | Yes | The funds cannot be allocated directly in our EMFAF OP, but if the costs are foreseen in NWP, then they are eligible, similarly to other DCF costs. |
| FIN | Yes |   |
| FRA | Yes |   |
| DEU | Yes |   |
| GRC | Yes |   |
| HUN | Yes |   |
| IRL | Yes |   |

| ITA | Yes |                                       |
|-----|-----|---------------------------------------|
| LVA | No  | Public procurement                    |
| LTU | Yes | The agreement will be needed          |
| MLT | Yes |                                       |
| POL | Yes |                                       |
| PRT | No  | Other legal aspects                   |
| ROU | Yes |                                       |
| SVK | No  | budget of the ministry of agriculture |
| ESP | No  | See comments under 7. below.          |
| SWE | Yes |                                       |
| NLD | No  |                                       |

# Question 3: Is it possible for your MS to include this activity in your WP and allocate the amount for cost on yearly basis starting from 2023?

#### 3.1. If NO please provide your concerns

|     | Q 3     | Q 3.1.  |
|-----|---------|---|
| AUT | No      | See above   |
| BGR | Yes     |   |
| HRV | Yes     | Yes, provided that relevant information is shared   |
| СҮР | Yes     |   |
| CZE | Yes     |   |
| DNK | Yes     |   |
| EST | Yes     |   |
| FIN | Yes, No | This activity can be a part of the WP. It can be part of the entire DCF project.  |
| FRA | Yes     |   |
| DEU | Yes     |   |
| CDC | NI-     | The WP has already been approved and no changes can be done at this point.  Nevertheless, we will examine the possibility to allocate the amount as soon as possible, after all MS reach to an agreement concerning the way of the funding of |
| GRC | No      | the Secretariat.  |
| HUN | Yes     |   |

| IRL | Yes |  |
|-----|-----|--|
| ITA | Yes |  |
| LVA | No  | We could not pay without public procurement  |
| LTU | Yes |  |
| MLT | Yes | NA   |
| POL | Yes | option "YES" is subject to fnalisation by 2023 and approval of national Operational Programme (under EMFAF) by COM |
| PRT | No  | We need legal base, because this is not included in the eligibility of EMAF.                                       |
| ROU | Yes |  |
| SVK | No  | budget for data collection is allocated for pilot study  |
| ESP | No  | See comments under 7. below.   |
| SWE | Yes |  |
| NLD | Yes |  |

# Question 4: Is it acceptable for your MS and your EMFAF managing authority to have an invoice from an external (outside of your MS) body?

#### 4.1. If NO please provide your concerns.

|     | Q 4                            | Q 4.1.   |
|-----|--------------------------------|--|
| AUT | To be decided at a later stage |  |
| BGR | Yes                            |  |
| HRV | Yes                            |  |
| СҮР | Yes                            |  |
| CZE | Yes                            |  |
| DNK | Yes                            |  |
| EST | Yes                            |  |
| FIN | Yes, No                        | It is possible to have an invoice from an external body. In fact, LUKE needs it in order for LUKE to pay once LUKE has received the invoice. Managing authority is not relevant in this respect. |

| FRA | Yes | Concern probably about the selection of the entity conducting the secretariat: it should clarified who is going to run the secretariat (external provider, European Commission? and who will mandate it - in case of an external provider, proof should be given to ensuthat external provider was selected through a public contract procedure which follows national rules. | ')<br>ure |
|-----|-----|---|-----------|
| DEU | Yes |   |           |
| GRC | Yes |   |           |
| HUN | Yes |   |           |
| IRL | Yes |   |           |
| ITA | Yes | MS don't have a direct relationship with the contractor. It is a reimboursement for the other contractor  |           |
| LVA | Yes |   |           |
| LTU | Yes |   |           |
| MLT | Yes | NA  |           |
| POL | Yes |   |           |
| PRT | No  | Portugal must comply with Public procurement.   | 2.        |
| ROU |     |   | 20        |
| SVK | No  | Contribution of Slovakia is planed from the budget of the ministry  |           |
| ESP | No  | See comments under 7. below.  |           |
| SWE | Yes |   |           |
| NLD | Yes |   |           |
|     |     |   |           |

Question 5: Please provide acceptable procedure for the election of responsible organisation. More information on the procedures is accessible on the following web link - <a href="https://ec.europa.eu/regional\_policy/sources/docgener/informat/2014/guidance\_public\_proc\_en.pdf">https://ec.europa.eu/regional\_policy/sources/docgener/informat/2014/guidance\_public\_proc\_en.pdf</a>

|     | Q 5  |
|-----|--|
| AUT | The procedure causing the smallest administrative burden should be selected.   |
| BGR | Open – Call for tenders  |
| HRV | Open – Call for tenders  |
| СҮР | Restricted - selection and shortlisting on the basis of a Pre-Qualification Questionnaire (PQQ) with a minimum of five candidates. |
| CZE | Restricted - selection and shortlisting on the basis of a Pre-Qualification Questionnaire (PQQ) with a minimum of five candidates. |
| DNK | Competitive Dialogue   |
| EST | Open – Call for tenders  |
| FIN |  |
| FRA | Open – Call for tenders  |
| DEU | Restricted - selection and shortlisting on the basis of a Pre-Qualification Questionnaire (PQQ) with a minimum of five candidates. |
| GRC | Restricted - selection and shortlisting on the basis of a Pre-Qualification Questionnaire (PQQ) with a minimum of five candidates. |
| HUN | Restricted - selection and shortlisting on the basis of a Pre-Qualification Questionnaire (PQQ) with a minimum of five candidates. |
| IRL |  |
| ITA |  |
| LVA | Open – Call for tenders  |
| LTU | Competitive Dialogue   |
| MLT | Open – Call for tenders  |
| POL | Restricted - selection and shortlisting on the basis of a Pre-Qualification Questionnaire (PQQ) with a minimum of five candidates. |
| PRT | Open – Call for tenders  |
| ROU | Negotiated Procedure with publication of contract notice (CN)  |
| SVK | Restricted - selection and shortlisting on the basis of a Pre-Qualification Questionnaire (PQQ) with a minimum of five candidates. |
| ESP | Open – Call for tenders  |

| SWE | Restricted - selection and shortlisting on the basis of a Pre-Qualification Questionnaire (PQQ) with a minimum of five candidates. |
|-----|--|
| NLD | Competitive Dialogue   |

# Question 6: Do you think that it is needed to have a common (multilateral) agreement between all MS for the funding of the RCG Secretariat??

#### 6.1. Please provide your comments

|     | Q 6 | Q 6.1.  |
|-----|-----|---|
| AUT | No  | It is unclear who should be the partners of such an agreement. It seems a burden some exercise  |
| BGR | No  |   |
| HRV | Yes | Please consider the information provided as preliminary, we may change our position based on the development of the situation in the later stages.  |
| CYP | Yes | We consider it would be easier for the EMFAF Managing Authority to proceed with the payment.  |
| CZE | Yes | The Czech Republic wants to support the activities of the RCG, in our case especially ECON. In terms of the process of how to submit the contribution, we are able to process everything through a project financed from the OP Fisheries. However, at the same time, very strongly, we would like to express that the proposed system is administratively very, very complicated. The processing costs alone will exceed the amount of RCG support itself. Therefore, we propose that the support of the RCG's activities be, for example, tied to the National Correspondent, which would pay, for example, an annual membership fee that would correspond to the amount of the given MS. In the case of CZE, the National Correspondent is paid from the OP Fisheries project and this fee would be generated from this project, where, for example, training amounts are taken into account.                      |
| DNK | Yes |   |
| EST | Yes | It feels like a safe option to have an agreement that confirms that all MS are in for the funding. If public tender is needed then whoever is making the tender needs also to be sure that everybody will pay their share. This multilateral agreement should contain information about the tasks of the secretariat, which MS are contributing + how much and also a mandate for a person/institute/country who is responsible for making the contract happen (it means conducting a procurement if needed, signing the contract). I also think that is should be thought beforehand who will send out the invoices to the MSs - would it be an institute who has the mandate to sign the contract or would the invoice be sent by secretariat to all MS. If this logic is written in the multilateral agreement, then it would be bases for "why do we need to pay the invoice from some random company/institute". |
| FIN | No  | It is necessary for the RCG to agree that the secretariat is funded. This would need to reflected in the minutes of a RCG meeting. No formal agreement is needed  |
| FRA | Yes | It should be clarified who will run the call for tenders and perform the selection of the entities for the secretariat, and which role play MS in this process. Moreover, the content of the secretariat activities should be agreed within MS before any call for tenders (eg it is not clear in the documents provided whether RCG Secretariat will operate also for Med&BS RCG)  |
| DEU | Yes |   |
| GRC | Yes | We think that reaching a common agreement is essential for the viability of this the procedure.   |
| HUN | Yes | Hungary wants to support the activities of RCG, in our case especially ECON. In terms of the process of how to submit the contribution, we would like to process everything through a DCF project financed from the OP.   |

| IRL | No  | we do not require an agreement, but if the view was that an agreement was required in order to confirm the commitment of each MS to contribute we would be happy to sign an agreement. |
|-----|-----|--|
| ITA | Yes | Answer 5, to choose the way that best fit the choice of the contractor taking into account the amount of the contract and the threshold  |
| LVA | Yes |  |
| LTU | Yes |  |
| MLT | Yes | This would simplify the process  |
| POL | Yes | Multilateral agreement seems an easy form of a legal basis for cost sharing  |
| PRT | Yes | Transparency must be a principle.  |
| ROU | Yes |  |
| SVK | Yes |  |
| ESP | Yes | See comments under 7. below.   |
| SWE | Yes |  |
| NLD | No  |  |

#### Other comments and feedback received

| AUT | Participation in SECWEB should be voluntary and adapted to MS needs.   |
|-----|--|
| CZE | We would prefer the simplest possible way and method of financing the RCG secretariat. In general, it would be best if the RCG could be funded directly by the EC, especially in relation to the EC's need to collect data for the Common Fisheries Policy. As a result, there would be no administratively complex process of returning funds allocated and already transferred to individual MSs and then back to EC. Generally, in the case that there will be an agreement between the MSs on separate contributions, the proposed amount of 3125 EUR/Year for CZE is acceptable.  |
| EST | A comment about how the election of responsible organisation is made - it is not relevant for us:) It turned out that important things are that the cost is eligible (if the secretariat is written in the WP and COM has accepted it, then we can pay for the cost) and we need to have some bases why this specific company is sending us the bill (either a signed agreement and/or a contract needs to be there). But it is not important how the service provider (secretariat) was selected, unless the tender is done in Estonia and then our national rules apply and probably a public international procurement needs to be followed. But as I understood the issue, then the selection upon the service provider can also be a simple decision, i.e. CETMAR has participated in the SECWEB project and thus has the knowledge base, so that is why we chose them as a contract partner. |
| HUN | We would prefer the simplest possible way and method for financing the RCG secretariat. In general, it would be best if the RCG could be founded directly by the EC, in relation to the EC's need to collect data or the Common Fisheries Policy. In the case that there will be an agreement between the MSs on separate contributions, the proposed amount of 3125 EUR/year for HU is acceptable.  |

|     | answer 4 : please note that in Italy the invoice, strictly speaking, is a list of goods sent or services provided to the Managing Authority, with a statement of the sum due for these, while a list of goods sent or services provided to an external organisation and funded by the managing authority is called "reimbursement |
|-----|---|
|     | answer 5: generally speaking, Italy takes into account the total amount of the tender and its threshold, in order to choose the procedure that best fit.  However, the question is unclear:   |
| ITA | - Why does the RCGs Secretariat ask to Member States which procedure to adopt for the election of the responsible organisation, shouldn't the RCGs call the procedure common to all Member States?  |
| POL | Regarding Question 5: any procedure for the election of responsible organisation is acceptable. The simplest the best.  |
| PRT | In question 5 also the option 'Restricted - selection and shortlisting on the basis of a Pre-Qualification Questionnaire (PQQ) with a minimum of five candidates' is feasible.  |
| ROU | Regarding the question no. 4 at this moment we don t know if our managing authority will accept an invoice from an external body.   |
|     | Under our national regulation it is not possible to make any payment without following strict, time-consuming contracting procedures, involving complicated public procurement, as well as mandatory audits.  |
| ESP | Being this a periodical rather than an occasional payment we believe, as we have stated in previous occasions, the Commission itself facing this expenditure could be a better solution.  |
| SWE | Our answers are based on the premise that we can allocate the proposed amount from your national EMFAF Operational programme, i.e. that the cost is eligible. This is not yet agreed with the EMFAF managing authority in Sweden.   |

Based on consultations with the MS and Commission, there are three alternative options considered on how to formalize the long-term support of the Secretariat:

- 1. The creation of a common pot of funds with contributions from each Member State according to different scenarios for which information has been distributed and one MS acting as a "depositary" of the funds and contractor of the service provider. In this scenario, the contract would be a public procurement contractual procedure. This is considered very complex and lengthy at the bureaucratic level and in some countries their administration may not even have a way to implement it
- 2. The constitution of a legal entity with a form like that of an Advisory Council, taking as a model the AC-LDAC so that it could be based in Spain as part of the voluntary agreement of the members of the AC. The MS, the Commission and CETMAR itself would be involved, the latter in providing facilities and some of the necessary means for the support service as the AC builds its own structure gradually. MS would pay a member fee to the AC, the Commission could make a direct allocation of funds through a direct grant. It is less complex than the previous one but it is not a completely immediate solution either since the decision-making process prior to the start-up of the service could make this process quite slow and bureaucratically expensive.

During the second half of 2022, after receiving feedback on the long-term funding of the Secretariat from MS, the establishment of a legal entity was identified as scenario, which should be further investigated. Thus, a non-profit organization would be the most suitable legal form. SECWEB team looked at the case of Advisory Councils (ACs) as a reference, in particular LDAC. Several exchanges and a meeting with the LDAC general secretary were done during the project.

Legal background for the establishment of a supporting structure for RCGs, the Secretariat

It was found out that there are significant differences in the legal background for the establishment of ACs in comparison to RCG's Secretariat.

The most important references that supported the establishment of ACs are:

2004 - Council Decision of 19 July 2004 establishing Regional Advisory Councils under the Common Fisheries Policy (2004/585/EC) (repealed and superseded in 2007))

2007 A modification incorporated the financial provisions to enable the funding by the EC

Prior to establishment stakeholders in the fisheries sector make a request to the MS (with Objectives, RoPs, budget, etc – the SecWeb project provided the RCGs with most of these elements) and then, the MSs assess such a request and transmit a recommendation to the EC.

2007 –Commission decision of 29 March 2007declaring operational the Regional Advisory Council for the High Seas/Long Distance Fleet under the Common Fisheries Policy (2007/206/EC)

2013 –2015 –2021 and 2022 Delegated Regulations laying down detailed rules on the functioning of the Advisory Councils under the Common Fisheries Policy

#### 3. The last proposal is the following:

All countries involved agree to **contract** their share of the **service directly with the secretariat provider** (instead of making a common fund in a state). As it is a small annual amount, it is considered that direct award should not be problematic or not at least for the majority of Member States. Also, those MS who need to do procurement, believe that if this is the case, and the MS need to request three offers, they stated that this should not be problematic. It is agreed that Secweb should describe the technical commitments (which would be like a technical specification).

**Scenario 5** was created in regards to this last proposal. The fee is calculated to be proportional to the country's participation in the EMFAF and participation in the RCGs, and that each RCG has a weight for its activity and dimension. Additionally, COM could also consider the possibility to be a customer of the service and contribute to a part.

At the RCG Decision Meeting on 19 September 2022, the NCs agreed in principle to support the long-term functioning of the RCG secretariat beyond the SECWEB project. The grant coordinator for the SECWEB project presented the state of play in the NC meeting, and raised the issue of future financing, after the end of the grant. There was common agreement that the continuation of the secretariat must be ensured. It was concluded that, although the exact amounts are not known at this stage, it is essential that a commitment is made by all MS, to ensure financing of the secretariat beyond the duration of the grant. It was agreed that all MS would confirm this commitment by including a standard statement /in the text box below/, to be provided by the RCG secretariat, in an amended national work plan for 2023. Potential participation by the COM in the financing will be confirmed at a later stage.

General comment: Use this text box to provide information on other data collection activities that relate to your EMFAF operational programme and need to be included in the work plan and the annual report. Describe activities that are funded by the DCF but fulfil objectives under other EMFAF priorities, like marine knowledge, or activities funded by the DCF, but without a direct link to the EU MAP specific requirements or WP template tables, like freshwater fisheries. You can also include one-off specific studies for a particular end-user need that do not enter the regular data collection.

1. Aim of the data collection activity

Support the operation and functioning of the RCG's Secretariat for a fluent regional coordination of data collection activities

2. Duration of the data collection activity 01/01/2023 - 31/12/2025

3. Methodology and expected outcomes of the data collection activity

The Secretariat's organizational structured has been set up and pilot tested throughout SecWeb project. The key functions of the RCG's Secretariat have been determined in close collaboration with all RCGs, in particular with RCG and Intersessional Subgroups (ISSGs) chairs. A business model has been developed. In addition, good practices in communication within and among the RCGs have been promoted and installed. The overall capacity to reach out to a wider public and increase the visibility of the work and output of the RCGs has been boosted with the development of a dedicated website and the consolidation of a visual identity. RCG chairs and the RCG's network in general have acknowledged the added value of having an RCG's Secretariat

RCG chairs and the RCG's network in general have acknowledged the added value of having an RCG's Secretariat to the overall aim of improving data collection activities.

Based on SecWeb project outputs the proposed data collection activity will connect the whole RCG network and stakeholders to work together on common goals. The Secretariat provides fluent administrative and coordination support for more efficient regional coordination liberating national experts involved in data collection activities from heavy burden administrative tasks.

Overall expected outcomes

✓ A full-time dedicated Secretariat support service for the RCGs enables a consistent approach to administering RCG activities, facilitates communication, and enhances the intersessional work, supporting also the work of subgroups.

- ✓ A dynamic and permanently updated website will be kept available including as features:
  - o Integration allowing seamless synchronization with third-party information needs and requests.
  - o Responsive display to serve content across multiple devices, screens, and browsers.
  - o User experience- maintaining a satisfactory user experience throughout the website sections.
  - o Accessibility To any interested visitor in a user-friendly way across the website sections.
  - o Retention- keeping visitors coming back to the website.
  - o Links to relevant restricted access sites and virtual environments.
- ✓ The Visual identity for the RCGs is increasingly consolidated and visibility and understanding of the work by the RCGs is enhanced for the relevant stakeholder groups.
- ✓ A regularly updated Stakeholders' database improves the communication function among the RCGs' experts and the stakeholders' community.
- ✓ Internal communication protocols and help-desk in place makes it easier for any new comer to efficiently join, adopt responsibilities, and contribute to the RCGs objectives and work commitments.

(max 900 words per activity)

Annex II. Short operational plan (Section IV.I)

# MS feedback on Secretariat's short-term funding

#### **Questions overview**

Despite the efforts to find a common administrative procedure for all MS for the long-term funding of the Secretariat some questions still remain. In order to proceed gather MS's feedback on the following:

- 1. How much is the **financial limit** for a **direct service contract** in your country?
- 2. Is it feasible for your organisation to **formalise a direct service contract** for more than one year for the Secretariat Support service?
- 2.1. What is the time-frame limit for this in case it exists?
- 2.2. How much is the **financial limit f**or a direct service contract without open procedure in your country?
- 3. Is there in your national administration any special requirement for foreign service providers (within the EU)? If yes, could you:
- 3.1 Please explain what they are (and legal references to it)
- 3.2 What are possible solutions for having services from another EU member state to your national administration?
- 4. Normally for **public institutions** there is need to gather three **offers from different potential providers** for a minor service contract. Are there exceptions to this rule foreseen by law in your country (e.g a limit to the budget?

If so, could you please explain if you consider this could apply for the Secretariat given the service description provided, the background and the need for all the network to go for a common service provider?

5. Can your country have the **service contract** for the Secretariat services **in forced from 1**st **January 2023**?

If not, when do you think it will be feasible to have the contract in force?

#### MS's feedback question by question

Question I: How much is the financial limit for a direct service contract in your country?

| BEL |   |
|-----|---|
| BGR | BGN 30 000 (aprox. <b>EUR 15 400</b> ) excl. VAT.  /according to Art. 20, para. 3, item 3 of the Public procurement act/.   |
| CZE | The question remains, is it about providing services in the form of direct purchase? Will there be an object with a legal personality from which it will be possible to purchase the mentioned service? If we look at it as a direct purchase according to the Act on Public Procurement and the Rules for Applicants and Beneficiaries, then it is up to CZK 500 000 (EUR 20 000) for a subsidized contractor and CZK 2 million (EUR 80 000) for non-subsidized ones (up to 50% support included).   |
| DNK | If the service contract is below <b>EUR 6 500</b> annually we directly sign it. If it is above we need to have two offers.  |
| DEU | EUR I 000   |
| EST | NO LIMIT when using a derogation in public procurement act that may allow to bypass public procurement procedure.   |
| IRL | We are planning to use a derogation in our public procurement act that will allow us to bypass public procurement procedure. When using the derogation there is no financial limits to the contract sum. Our national public procurement act is available also in English ( <a href="https://www.riigiteataja.ee/en/eli/525082022001/consolide">https://www.riigiteataja.ee/en/eli/525082022001/consolide</a> ) and we plan to use derogation described in §11 (1) p6: "The contracting authority or entity is not required to apply this Act where: 6) a public contract or a design contest is co-financed for the most part by an international organisation or international financing institution and the parties have agreed on applicable procurement procedures;" |
| GRC | EUR 30 000, for a closed procedure  |
| ESP | EUR 14 999 (excl. VAT), according to Spanish law  |
| FRA | Given the amount requested ( <b>EUR 8 000</b> to <b>EUR 12 000</b> ) for France, we can set a contract directly with the selected service that will ensure the secretariat, without going through 3 offers.   |
| HRV | Ministry of Agriculture of Republic of Croatia is the body designated to implement DCF. Pursuant to Art. 7 of the currently valid Ordinance of simple procurement procedure, procurement of goods, works and services of the Ministry of Agriculture, simple procurement whose estimated value is less than HRK 100.000,00 (EUR 13 272,28) excluding VAT, can be carried out by sending a call for an offer to one subject.   |
| ITA | EUR 139 000 up to the 30 of June 2023, after that it could come back to EUR 40 000  |
| СҮР | EUR 5 000   |
| LVA | There is no financial limit for a direct service contract.  |
| LTU | In Lithuania procurement procedures is applicable in public sector. Until apr. <b>EUR 10 000</b> we can apply for simple procedure  According to the table, contribution from Lithuania is 5653,04 (correct me, if I am mistaken). So, it is possible to apply for the simple procurement procedure in that case.   |
| HUN | In case of entering into a "normal market" contract public procurement rules apply, no other limits exist.  |
| MLT | Direct Contracts valued more than EUR 10 000 and just below EUR 140 000 may in exceptional cases be procured through a direct contract by Contracting Authority upon obtaining the prior written approval of the Minister (for Finance) who may delegate his authority in writing to the Permanent Secretary or any other Senior Official in his Ministry.  |
| NLD | <b>EUR 215 000</b> as the limit for the total amount (based on EU regulation). For a multi-year contract, the yearly limit is $1/4$ of $215k=>$ <b>EUR 53 750 = p/year for four years</b> . The anticipated Dutch   |

|     | contribution is well under this limit. Should the total budget be considered, a minimum of three offers are required. The best option would be to have a dedicated contract for the support of the Netherlands. The following answers are based on the assumption of the Dutch contribution only.   |
|-----|---|
| AUT | No reply to the questions, find provided explanation in last section of this doc  |
| POL | Formally there is <b>No limit</b> , However, in practice the financial limit is determined by the EMFAF funds available to POL to cover all DCF activities (data collection, coordination, secretariat service etc)   |
| PRT | The limit is <b>EUR 5.000</b> (artigo 128.° do CCP)   |
| ROU | According to the latest amendments adopted in matters of public procurement, the Contracting Authority has the right to directly purchase products or services if the estimated value of the purchase, without VAT, is less than LEI 270 I 20 lei (EUR 54 000 euro), respectively works, if the estimated value of the purchase, without VAT, is less than LEI 900 400 lei (EUR 180 000). |
| SVN | For ordering goods, services and works,the value of which is lower than <b>EUR 2,000.00</b> without VAT   |
| SVK | <b>No limit</b> - § 81 direct negotiation procedure and § 1 par. 2 - 12 ZVO, § 1 par. 13 to 140,000 or 215,000 euros, § 1 par. 14 up to 300,000 euros, § 1 par. 15 to 10,000 euros direct entry/year.   |
| FIN | Financial limit is EUR 60 000.  |
| SWE | 700 000 SEK (→ 30/09/22 SEK 700 000 = <b>EUR 74 037</b> )   |

## Question 2: Is it feasible for your organisation to formalise a direct service contract for more than one year for the Secretariat Support service?

2.1 What is the time-frame limit for this in case it exists?

2.2 How much is the financial limit for a direct service contract without open procedure in your country?

|     | Q - 2.1 – time limit  | Q -2.2 - € limit   |
|-----|---|--|
| BEL |   | We need three offers   |
| BGR | According to Art. 113, para. I of the Public procurement act "The public procurement contracts for periodic or long term fulfillment shall be signed for a term, which shall not exceed 5 years."   | The financial limit for a direct service contract in Bulgaria is up to BGN 30,000 ( <b>EUR 15 398</b> ) excluding VAT. /according to Art. 20, para. 3, item 3 of the Public procurement act. |
| CZE | Neither the Public Procurement Act nor our Rules impose a maximum duration of the contract. However, this must be further consulted with public procurement experts (specialist department at the Ministry of Agriculture) or lawyers. We need more time, please.                                   | The limit is up to 2 million CZK ( <b>EUR 80 000</b> ). (Rules for Applicants and Beneficiaries).  |
| DNK | The EMFAF funding for data collection in Denmark is based on a contract for 2021-2023. We expect the next contract will be for 2024-2027. This means that we can sign a contract for 2023 and another for 2024-2027 when the contract with the Danish managing authority for that period is signed. | See our answer to 1. Otherwise if the amount is larger it is around <b>EUR 65 000</b>  |
| DEU | We can conclude contracts up to <b>4 years</b> . We have to make a forecast. If, for example, it is clear that an order is to be awarded on a   | We have to note that we have to hand over all transactions above <b>EUR 25 000</b> net to central federal procurement.   |

|     | permanent basis, the costs must also be considered beyond the four years.   | We cannot carry out any open procedures internally at Thünen, as these relate to the upper threshold area. The central federal procurement is responsible for this area.  |
|-----|---|---|
| EST | Yes, the contract can last longer than one year. The contract <b>must follow the financing period of the money used.</b> As the EMFAF money will be involved, there will not be problem with the 3-year contract period (at least not for the first period).                              | With the use of public procurement derogation, we do not face any monetary limits with this service.  |
| IRL | Time frame limit is usually dependent on the cost of the overall contract   | Technically there is no financial limit for this type of contract in Ireland. A direct service contract without open procedure would require internal approval from Marine Institute management.                  |
|     | A direct service contract without open proce<br>Marine Institute management   | edure would require internal approval from  |
| GRC | In general, it is <b>3 Years</b>  | EUR 30 000 euro for a closed process  |
| ESP | The time-frame limit for a direct service contract in Spain is I year, with no extensions.  Limitation on the execution of a new contract with the same content the following year, since it is understood that if there is a multiannual need, a multiannual contract must be formalized | EUR 14 999 excluding VAT  |
| FRA |   | Given the amount requested ( <b>EUR 8 000</b> to <b>EUR 12 000</b> ) for France, we can set a contract directly with the selected service that will ensure the secretariat, without going through 3 offers.       |
| HRV | We can enter into a contract for a longer period if it is defined as such in the annual procurement plan of the Ministry  | On an annual basis, the financial limit is less than HRK 100.000,00 ( <b>EUR 13 272,28</b> ) excluding VAT.   |
| ITA | No time frame limit but the duration must be specified in the contract but <b>no longer than 9</b> years.   | Up <b>EUR 139 000</b> there can be a restricted invitation to at least five operators   |
| СҮР | There is <b>not a time limit</b> , as long as you do not exceed the financial limit (EUR 5 000)   | It is only possible if the financial limit of <b>EUR 5 000</b> is not exceeded, otherwise it will be considered a partition and it is not allowed according to the relevant legislation on public procurements.   |
| LVA | Normally it is <b>no longer than 5 years</b>  | Starting from EUR 10 000 open tender should be organized. However, starting from EUR 1001 we should choose the offer with the lowest price – what is obtained from information from least two potential providers |
| LTU |   | Until apr. <b>10 000 Euro</b> we can apply for simple procedure (in that case we need three offers from the potential providers, simple form of agreement can be signed between The Ministry                      |

| VVI 3 — | crisuring future operation and funding  |  |
|---------|---|--|
|         |   | According to the table, contribution from Lithuania is EUR 5 653,04 (correct me, if I am mistaken). So, it is possible to apply for the simple procurement procedure in that case.   |
| HUN     |   | Between HUF I 000 000.0 (approx. EUR 2 500.) and HUF I5 000 000 (approx. EUR 37 000 EUR) three offers are needed. Over I5 000 000.0 HUF public procurement is needed.  |
| MLT     | There isn't any time frame limit, just a date for the deadline of services has to be indicated in the procurement document and contract agreement.  | < <b>EUR 134 999.99</b> (exceptional cases)  |
|         | Yes, though dedicated to the support of the Neth  | nerlands   |
| NLD     |   |  |
| INED    | 2 weeks after receiving the offer   | <b>EUR 70 000</b> , though one formal offer for the work is required for contracts less than 70,000.   |
| AUT     | No reply to the questions, find provided explanation in last section of this doc  |  |
| POL     | I believe the time-frame limit is directly connected to the duration of EMFAF ( <b>until 2027</b> ).  | Formally there is <b>no limit</b> , However, in practice the financial limit is determined by the EMFAF funds available to POL to cover all DCF activities (data collection, coordination, secretariat service etc)  |
| PRT     | 3 years   | Without open a public procedure by direct adjustment i tis possible to pay till <b>EUR 20 000</b> (art.° 20.°, n.°I, alínea d) do CCP)   |
| ROU     | The time limit for a regular service contract is established by art 165 of HG 395/2016 which stipulates the following:  (1) The contracting authority has the right to extend the duration of regular supply or service contracts concluded in the previous year and whose normal performance period expires on December 31, if the following conditions are met cumulatively:  a) in the award documentation, drawn up on the occasion of awarding the initial contract, the possibility of supplementing the quantities of products and services already purchased, as well as the maximum level up to which such supplement will be possible, were foreseen;  b) in the award documentation, as well as in the contract, a clause is explicitly provided by which the right of the contracting authority to opt for supplementing the quantities of products or services is conditioned by the existence of the financial resources allocated for this purpose;  c) the estimated value of the initial contract was determined by taking into account the option in which the contracting authority opts for supplementing the maximum amount of | According to the latest amendments adopted in matters of public procurement, the Contracting Authority has the right to directly purchase <b>products or services</b> if the estimated value of the purchase, without VAT, is less than LEI 270 I20 (EUR 54 000), respectively works, if the estimated value of the purchase, without VAT, is less than LEI 900 400 (EUR 180 000). |

d) the extension of the initial contract cannot exceed a duration of 4 months from the date of expiry of the initial period of its fulfilment. For service contracts that have a duration of more than one year, there is the possibility of concluding a framework agreement and awarding several subsequent contracts based on The duration of a framework agreement cannot exceed 4 years, except for exceptional cases that the contracting authority thoroughly justifies, especially by the subject of the respective framework agreement. However, a framework agreement cannot be concluded following a direct procurement procedure, it being allowed only after the following procedures have been carried out: a) the open tender; b) restricted tender; c) competitive negotiation; d) competitive dialogue; e) partnership for innovation; f) negotiation without prior publication; g) the solution competition; h) the award procedure applicable in the case of social services and other specific services; i) simplified procedure. 2- Is it feasible for your organisation to formalise a direct service contract for more than SVN one year for the Secretariat Support service? No No time limit, but it must be for services falling No limit - § 81 direct negotiation procedure under the above exceptions. and § I par. 2 - 12 ZVO, § I par. 13 to 140,000 **SVK** A framework agreement that can be concluded or 215,000 euros, § 1 par. 14 up to 300,000 for a maximum of four years, except in euros, § 1 par. 15 to 10,000 euros direct exceptional cases. entry/year. Practice is that a contract is made for four FIN See reply to question I., **EUR 60 000** years, in principal it can be longer In fact, no actual time-frame limit exists, but it is SEK | 456 476 (→ 30/09/22 SEK | 456 476 = not possible to split the contract in several **SWE EUR 130 063)** smaller, so that each amount falls below the

Question 3: Is there in your national administration any special requirement for foreign service providers (within the EU)? If yes, could you:

- 3.1 Please explain what they are (and legal references to it)
- 3.2 What are possible solutions for having services from another EU member state to your national administration?

BEL

financial limit

The requirements that exist are in case the amount is more than BGN 30,000 (EUR 15 398) and there **will be a public procurement**. If a public procurement is expected, we will provide a detailed list of requirements that the potential candidate must meet. All requirements which the potential candidate should meet are listed in the Public procurement **BGR** act, but they are relevant only in case there is public procurement. According to Art. 58, para. 3 of the Public procurement act, when the participant selected as an executor of a public procurement is a foreign person, he submits documents, issued by a competent authority, according to the legislation of the country in which the participant is established. If there is a need to provide this list, we will send it later on. CZE We need more time, please. This should be consulted with public procurement experts or lawyers. DNK No We can write to three potential bidders for up to EUR 25 000, regardless of where the bidder DEU is located. We will need a legal base for making the transactions when the bill arrives. So, if we will have the decision made by all the MS in RCG Decision Meeting (including agreement text with all the details of how all MS are contributing and what services are involved), and **EST** agreement/contract between Estonian Ministry of the Environment and Secretariat, that will describe the details (yearly fixed amount, what for, to whom ect) of the service, signed, then there should not be any additional requirements from our side. **IRL** Only what is provided by the EU Legislation. **GRC** There are no restrictions as far as the EU Member States is concerned **ESP** No reply to the questions but explanation of cost-sharing agreement (see last section of this FRA There are no special requirements for foreign service providers in terms of contracting. They must **HRV** meet all the conditions prescribed by the procurement documentation. ITA No there isn't CYP No LVA Nο LTU No. The contract shall be concluded with the beneficiary of the next DCF call in the frame of the HUN new Hungarian fisheries operational program. The call shall enable the conclusion of a contract or may even require it from the beneficiary to conclude it. MLT No, if the service providers send the necessary documents listed in the procurement document NLD **AUT** No reply to the questions, find provided explanation in last section of this doc POL In case the secretariat services are included in POL WP accepted by COM Decision (and it will be) this is a formal basis for POL to cover our fee for these services. **PRT** There are no special rules for contracting services provided by foreigners It is always possible to hire foreign services, there is free competition in public procurement Not. But it is preferable for foreign service providers to have an account opened in the Electronic **ROU** System for Public Procurement. SVN No SVK It does not exist Service provider cannot be under the sanctions of the UN implemented in EU (e.g. Council FIN

decision 2022/1313)

**SWE** 

No

Question 4: Normally for public institutions there is need to gather three offers from different potential providers for a minor service contract. Are there exceptions to this rule foreseen by law in your country (e.g a limit to the budget?

If so, could you please explain if you consider this could apply for the Secretariat given the service description provided, the background and the need for all the network to go for a common service provider.

| BEL |  |
|-----|--|
| BGR | In case the total value for the performance of all services subject to the contract <b>does not exceed</b> BGN 30 000 (approx. <b>EUR 15 400</b> ) excl. VAT, it is possible to conclude a contract <b>with a specific supplier.</b> There is no requirement in the PPA to collect a certain number of offers in case of a direct award.   |
| CZE | Here we see an obstacle. In a closed call, the contracting authority invites at least 3 suppliers to submit a bid. The contracting authority will invite only such suppliers that it has information that they are capable of providing the required performance. The contracting authority may not invite the same group of suppliers repeatedly unless it is justified by the subject of the contract or other special circumstances, or by the cancellation of the previous tender.   |
| DNK | See our answer to I  |
|     | According to national procurement law, there is the possibility to award contracts by way of negotiation with or without participation competition. In our opinion, the question also alludes to the point of uniqueness. A unique selling proposition exists if a product can only be manufactured by one company due to its nature or if only one company sells the corresponding product on the market. The unique selling proposition therefore relates primarily to companies in the case of delivery services. If they are the only ones on the market who manufacture or sell the corresponding product, there is a unique selling point. Prerequisites for affirming a unique selling proposition based on the nature of the product are that the product is generally necessary, that it has a technical feature and that this technical feature is also necessary.                             |
| DEU | In the case of a SERVICE, a technical argument is required to justify a unique position of a market participant.   |
|     | An INDISPENSABLE PREREQUISITE for the application of the exception is that the client has up-to-date knowledge of the market, which must be documented by a comprehensive and careful analysis. Based on the market analysis, the objective conclusion must be justified that there is de facto only one company for the requested service. Mere considerations of expediency or purely economic reasons cannot justify the negotiation award with only one bidder. It is therefore not sufficient if the client only subjectively concludes that only a specific company can be expected to provide an economic service. The proximity of a company to the place of performance is also irrelevant. So if a facility carries out an award and aims for a unique position for a service, the market research results and documents should form the basis of the decision and be presented transparently. |
| EST | As we plan to use the <b>derogation</b> foreseen in public procurement act, then there is <b>no need for the three offers</b> from different potential providers.  |
| IRL | We can specify that the service is only available from the secretariat and will complete a sole supplier approval document for our financial department  |

| GRC | For the direct service contract, it is <b>not necessary to comply with the procedure of three</b> (3) <b>tenders</b> . It can be directly with a provider, as long as the <b>threshold of EUR 30 000</b> is respected.   |
|-----|--|
|     | Yes, it's necessary to gather at least 3 offers from different providers.  |
| ESP | The only exception is to demonstrate the impossibility of obtaining a bid from three different suppliers.  |
|     | We believe that this exception could be applied since we consider that currently, due to the difficulty of the dynamics and the specificity of the project, there would be no other supplier with the capacity to perform the tasks that CETMAR has performed.   |
| FRA | Given the amount requested (EUR 8 000 to <b>EUR 12 000</b> ) for France, we can set a contract directly with the selected service that will ensure the secretariat, without going through 3 offers.  |
| HRV | Pursuant to Art. 8 paragraph 2 of the aforementioned Ordinance, for goods, works and services with an estimated value of equal or more than HRK 100.000,00 ( <b>EUR 13.272,28</b> ) excluding VAT and less than HRK 200.000,00 ( <b>EUR 26 544,56</b> ) excluding VAT on a yearly basis, the invitation to submit offers can be sent to a smaller number of business entities than those prescribed in Art. 8 paragraph I (at least three) of the same Ordinance, however this needs to be justified and approved by the Minister. |
| ITA | Up EUR 139 000 there can be a restricted invitation to at least five operators   |
| CYP |  |
| LVA | Yes, we need at least two offers from different potential providers, if the amount is higher than EUR 1001. Exceptions to this rule are contracts bellow EUR 1001. To get the possibility to pay for Secretariat (in our case around 3000-4000 eur) we will need two offers from different potential providers.  |
| LTU | We need three offers from the potential providers.   |
| HUN | Under HUF I 000 000 (approx. EUR 2 500), 3 offers are not needed, and if there is a good reason, i.e., no one else has the required quality for the task/service, it is possible to dispense with the offers.  A declaration from the direct service provider or from the COM to support this statement, i.e., that there is no one else providing this specific service shall be needed. If the COM could make some kind of instructions/recommendations for member states on joining the secretariat would be also helpful.      |

**MLT** 

POL

**PRT** 

**ROU** 

#### WP3 - Ensuring future operation and funding

Three hand quotations are applied to a financial limit of EUR 5 000. When exceeding that, the procurement document should be uploaded on the Electronic Public Procurement System (e-PPS)

These justifications are being conveniently reproduced to highlight the **circumstances when direct service contract may be used**:

- a) When no tenders or no suitable tenders or no applications have been submitted in response to an open procedure;
- b) When for technical or artistic reasons, or for reasons connected with the protection of exclusive rights, the services may be provided only by a particular economic operator;
- c) Where the contract concerned is awarded subsequent to a design contest and must be awarded to the successful candidate or to one of the successful candidates;
- d) In so far as is strictly necessary, when the time-limits for open, restricted or negotiated procedures referred to in the Public Procurement Regulations cannot be respected for reasons of extreme urgency occasioned by unforeseeable events. The circumstances invoked to justify urgency must not be attributable to the contracting authority;
- e) In so far as is strictly necessary, for additional supplies, services and/or works not included in the project initially considered or in the contract first concluded but which have, through unforeseen circumstances, become necessary for the performance of the service or works or supplies described therein, on condition that the award is made to the economic operator executing the contract.
- Only one offer is required as long as the total amount doesn't exceed **EUR 70 000**.
- AUT No reply to the questions, find provided explanation in last section of this doc

I do not foresee a need for a formal procedure in POL to have a service contract signed. Including the secretariat services in POL WP accepted by COM Decision shall be sufficient basis for contract and fees paid. Ideally, it would be desired to have an agreement signed by all MS involved on setting the secretariat. In such an agreement we could for example have a provision that Spain is elected as a leader in the procedure for setting the RCGs Secretariat on behalf of all MS involved and then the provider for RCGs Secretariat shall be selected in accordance to the procedures in force in Spain.

If we are dealing with the figure of the preliminary consultation provided for in article 35.°-A of the CCP, it is in fact necessary to consult 3 entities before launching the direct award tender procedure (up to EUR 20 000)

In the case of direct acquisition, the contracting authority:

- a. has the obligation to use the electronic catalogue made available by SEAP or to publish an announcement in a dedicated section of its own website or that of SEAP, accompanied by the description of the products, services or works to be purchased, for purchases whose estimated value is greater than LEI 200 000 (approx. EUR 40 450), excl. VAT, for products and services, respectively LEI 560 000 (approx. EUR 113 265), excluding VAT, for works;
- b. has the obligation to consult at least three economic operators for purchases whose estimated value is greater than LEI 140 000 (approx. EUR 28 300), excl. VAT, for products and services, respectively LEI 300 000 (approx. EUR 60 678), excl. VAT, for works, but less than or equal to the mentioned value to lit. a); if, following the consultation, the contracting authority receives only a valid offer from the point of view of the requested requirements, the purchase can be made;
- c. has the right to purchase based on a single offer if the estimated value of the purchase is less than or equal to LEI 140 000 (approx. EUR 28 300), excl. VAT, for products and services, respectively LEI 300 000 (approx. EUR 60 678), excl. VAT, for works:
- d. has the right to pay directly, based on the legal commitment, without prior acceptance of an offer, if the estimated value of the purchase is less than LEI9 000 (approx. EUR I 820), excl. VAT.

| SVN | For ordering goods, services and works, the value of which is lower than <b>EUR 2,000.00</b> without VAT  |
|-----|---|
| SVK | It can be used e.g. expert opinion, determination of maximum limits, but this does not apply to the limitation of the procedure, but only to the verification of economy. Central public procurement can be used for several entities for the same subject of the contract. |
| FIN | Minor service contract limit is <b>EUR 30 000</b> . Some conditions may be applied leading to a lower limit than 30 000, likely not to be relevant here   |
| SWE | It is not statutory but is stated in the internal routines of the agency responsible for DCF (SwAM; Swedish Agency for Marine and Water Management)   |

# Question 5: Can your country have the service contract for the Secretariat services in force from Ist January 2023?

#### If not, when do you think it will be feasible to have the contract in force?

| BEL | A contract from 1st January 2023 is feasible, but to have this in place, we would need to sign by mid-december.  |
|-----|--|
| BGR | Yes, it is possible  |
| CZE | We need more time, please. We would have to know what kind of contract it is and consult with the lawyers.   |
| DNK | Yes  |
|     | Since the construct has not yet been finally clarified, it does not seem possible or realistic to conclude a service contract here by I Jan 2023.  |
| DEU | Please note that the total sum over a period of four years must be taken into account when awarding the grant. From EUR25 000, the award must be processed via our central federal procurement, whereby the processing time for national procedures in the below-threshold area takes between 4 and 6 months, in the upper-threshold area between 6 and 9 months.                          |
| EST | I principle yes, if the decision is made in RCG DM, but we are unable to sign the agreement/service contract before the Ist of January. There is an option to sign the contract later on the year, but the financial support period could still start at Ist of January 2023.  |
| IRL | Yes  |
| GRC | It might be possible, but we still need time to address this matter with all the contracting parties, in order to finalize the source of the funding (DCF, National Contribution etc)  |
| ESP | Yes. But it will last on a mandatory basis on December 31st 2022 and it may not be extended.   |
| FRA | A contract from 1st January 2023 seems feasible. but will need to be signed by mid-december.   |
| HRV | If it is a simple procurement procedure and the same is defined in the annual procurement plan of the Ministry, it should be possible to carry out a simple procurement procedure and have a contract until January 1, 2023. This also depends on specificities of the actual procurement procedure and documentation, following the approval of the National Work Plan by the Commission. |
| ITA | No This administration is reviewing suitable legal options for funding the secretariat service.  |

| СҮР | If the service contract is for one year and its value is below EUR 5 000, Cyprus can have the Secretariat services in forced from 1st January 2023.   |
|-----|---|
| LVA | If we would manage to receive two offers, there is no problem to start from 1st January.  |
| LTU |   |
| HUN | If the new DCF call in Hungary will be announced before $1^{\rm st}$ January 2023, it is possible.  |
| MLT | It should be possible; however, this depends on the availability of the source funding (EMFAF).   |
| NLD | Yes   |
| AUT | No reply to the questions, find provided explanation in last section of this doc  |
| POL | YES   |
| PRT | If we are dealing with a simplified direct adjustment, it is easy, but if we are thinking of making a direct adjustment up to EUR 20 000 with a public tender procedure, the internal procedure (PT DSAG/DSJ-1) will have to be carried out, and depending on priorities and financial availability, it is possible to proceed with the contracting until the indicated date. |
| ROU | Yes, if the steps to carry out the public procurement are undertaken in a timely manner, subject to the existence of the financial resources allocated for this purpose   |
| SVN | Yes   |
| SVK | We don't know the answer.   |
| FIN | In principle, the contract could be in force from 1 January 2023.   |
| SWE | I do hope so  |

| ESP        | We strongly believe that this form of financing is not the most appropriate one. This way of financing the secretariat of this body is not adequate and may lead to difficulties of coordination and financing in the near future. We urge the commission to enable a way to channel the funds through the EU budget. In this way, each state could earmark funds for this purpose through a voluntary/mandatory contribution.  Spain can contractually cover its share of the secretariat's expenses in 2023, but not in 2024 and 2025, because it's public contract regulation.  |
|            | Following discussions this morning, here is how we do for cost-sharing for international surveys in North Sea. I guess this procedure could be applicable to cost-sharing for SecWeb similarly.  |
|            | For the context, Ireland and The Netherlands conduct the blue whiting survey on behalf of different member states (~8 countries). The remaining countries contribute to the financing of the costs supported respectively by Marine Institute (Ireland) and Wageningen Institute (NLD). To do so, an agreement is signed annually between all MS involved, fixing a % of contribution by MS and thus the estimated cost for the following year by country.  For France, we also set up in place a complementary bilateral agreement btw our Ministry and each institute, which sets up the yearly price for each and allows us to register the upcoming cost. Each year, after the campaign, the institutes send us a report and an invoice, and we pay according on this basis. |
|            | I guess the same process could be done by a voluntary institute/administration   |
| FRA        | we agree on cost-sharing through a RCG recommendation and specifications for the secretariat   |
| 1101       | an institute/an administration from a voluntary country go through a procurement contract procedure, following specifications given by SecWeb and agreed   |
|            | a formal agreement is set bilaterally btw each country and the administration/institute  |
|            | the secretariat is followed by the administration or the institute, which at the end of each year provide each country with an invoice   |
|            | Hope this can help, please fill free to share if needed,   |
|            | I had contact with our financial services, and given the amount requested (8k€ to 12k€) for France, we can set a contract directly with the selected service that will ensure the secretariat, without going through 3 offers. A contract from 1st January 2023 seems feasible. but will need to be signed by mid-december.  |

|     | I would like to suggest another way of managing the activity of Secretariat.   |
| LTU | Maybe it is possible to organize the Secretariat activity by the base of multi-lateral agreement with Member States (like we have multi-lateral agreement between responsible MS for data collection in SPRFMO and CECAF regions) and no requirements for public procurement procedures in that case appear. According to our legislation, the agreement shall be approved by Ministry of Foreign Affairs, Competition Council of the Republic of Lithuania and Ministry of Justice. |
|     | But once it is approved, it is legal for many years and such costs will be eligible all the time until the multilateral agreement will exist.  |

|     | According to our understanding of the tables provided, Austria's annual contribution would amount to 470 Euros annually. If this is the correct assumption, we can agree with the proposal.  |
| AUT | On the practicalities: We would prefer to pay this amount from the technical assistance component of EMFAF, as the procedures are simpler and due to our limited staff resources, we welcome every avoidance of administrative burden.   |
